Shipment These Good

GRASS

Remember, the last lot of these Rugs were sold out as soon as people knew we had

WE HAVE just received another shipment of the same kind of good Grass Rugs that sold out last time as soon as people knew we had them. They come in three sizes: 6x9, 8x10 and 9x12. The colors are tan, blue and shades of green. The assortment abounds in good conventional and realistic designs. These prices are positively the lowest the rugs ever sold for in Albuquerque. Don't delay, for this shipment is smaller than the last which sold so quickly.

# Highest Food Authorities tell why Karo is one of the greatest of all energy-producing foods

Every father and mother should read this message

THERE is much more than the delicious taste of Karo to account for the fact that more than two hundred million cans were sold last year.

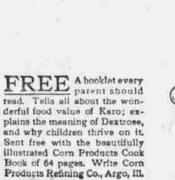

It's simple enough, when you know that Karo is perhaps the richest of all foods in Dextrose. And Dextrose is one of the most important food elements there is.

### You could not live long without Dextrose

Most of the foods you eat-such as bread, starchy vegetables, and all forms of sugarhave to be changed into Dextrose before your system can use them as energy foods.

So Karo may almost be said to be a predigested food. These are scientific facts, supported by the very highest medical and food authorities. Send for the free booklet mentioned below and read the facts.

Karo is perfectly delicious-whether for cooking, baking, candy-making, or preserving. It's the best part of the breakfast for millions of people-on pancakes, hot biscuits, or as a spread on toast.

### Your Protection

Do not be deceived by cans containing syrup that might look like Kato. The name "Kato" is on every can of original Karo-look for it, and be assured of full weight cans and highest quality.

### BLUE Karo

The standard table syrup. Also for cooking, baking and candy making. Light brown color, delicious flavor-s neavy-bodied syrup.

### RED Karo

The Ideal Syrup for every use - for cooking, baking, candy making and preserving. Because of its honeylike appearance many prefer it as a spread for cakes, biscuits, breads.

### GREEN Karo

- Flavored with highest grade real maple sugar. Very moderate in price-absolutely pure. The makers of Karo are the world's largest users of the bir hest grade maple sugar - over a thousand tons used annually.
